Ayron Dal Pont

Hortolândia, São Paulo, Brasil | +55-19-98848-6821 | ayrondp@gmail.com

Objective

As an Executive IT Architect my objective is to technically lead and drive projects by expertise and good influence, focusing on automation, cyber security and artificial intelligence areas.

Summary

Graduated in Computer Science at UFSC/SC and Post Graduated in Master Business in Information Technology at UniAnchieta/SP, with 21 years of IT professional experience, of which 19 years were in multinational IT companies in the state of São Paulo/Brazil.

Competencies

- Certified in many IT topics by IBM including Cloud, Monitoring and Configuration Management, Event Management, Big Data, IT Architect Methods and Techniques, Problem Solving, Artificial Intelligence, Design Thinking and Agile.

- IBM Certified IT Architect (Thought Leader) and IT Specialist (Experienced).

- Open Group Certified Distinguished Architect in Solution Architecture.

- Certified in Artificial Intelligence by IBM and Huawei academy.

- IBM Inventor (IBM Patent/2018) and IBM Redbook Silver Author (2010).

- Lead Architect responsible for driving innovation and automation globally, working with local and remote teams.

- Responsible for conducting PoC and PoV with cutting edge technology for monitoring and automation.

- Full end-to-end solution consultant in WW projects, including planning, deployment, configuration and verification, both on premise and SaaS (IBM, AWS, GCP, Azure).

- Good development skills on Shell Scripting, HTML, Python and C/C++.

- Excellent knowledge of system architecture, deep customer requirements and gap analysis understanding.

- 3rd party provider mediation and leader for solution adoption and implementation on customers.

- International experienced professional in Latin America and USA (US VISA ready).

- Both Brazilian and Italian citizen with valid passports (ready for working in Europe).

- Certified in IBM program for leaders - Future Leadership Generation Program.

- Mentor for 10+ IBMers to grow on their career (IT Architects and IT Specialists).
